

Part of the OMEPET team (good times!)

The release of Sancho Island is covered by ***El País***, Spain's highest daily circulation newspaper. You can read the online version

[here](#)

[IN SPANISH].

Sancho Island is the Graphic Adventure developed by our start-up OMEPET SL in 2005. Our flash based videogame was a great success, reaching peaks of 32k players per day.

Nowadays the website is not available anymore, but we are currently negotiating to reopen it and even publish unedited chapters. And with free access of course!
